ICNAC 2025

University of Salamanca | 6, 7 and 8 Octobre 2025

The Fourth International Congress of the Nineveh Academic Chair of the University of Salamanca, to be held on October 6th, 7th, and 8th, 2025, will focus on Assyrian language, history, and continuity. Experts are invited to delve deeply into these three fundamental themes for the Assyrian people. Scholars from a wide range of disciplines are welcome to submit abstracts of their presentations that align with the central topic of this fourth edition that will take place at the University of Salamanca.

The congress will feature conferences, communications, and roundtable discussions designed to offer participants and speakers a comprehensive historical, linguistic, and cultural perspective on the Assyrian people, grounded in rigorous scientific research. Throughout the event, experts will contribute innovative and enlightening insights into Assyrian history, language, and the much-debated question of continuity—both within internal and external academic forums.

In addition, thanks to Assyrian Art Institute, the congress will include a musical performance aimed at reviving the Assyrian cultural legacy that spans several millennia.
